Product characteristics

Bentonite Cat Litter

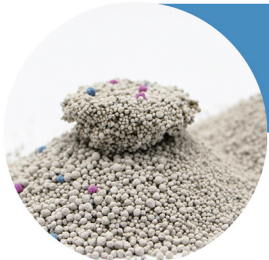

Most popular

BENTONITE CAT LITTER

Adopting natural high quality sodium bentonite, made by advanced production process with excellent coagulation and absorption ability, containing antibacterial factor, with a variety of fresh aroma, to reduce the worries of pets after defecation with excessive bad smell.

1. Excellent absorbency and durability, thus reducing consumption.
2. Odor absorption effect is very good, the smell is fresh and natural to give small animals a dry and fresh environment.
3. No dust, not easy to stick on the cat and the floor, there will be no harm to the cat's respiratory tract.
4. Environmental protection, the raw material is natural bentonite ore, will not pollute the environment.
